Subject: Re: BlueAssist cards

“Community Rail Lancashire has used BlueAssist cards since March 2017, to enhance their work with young people who have special educational needs and disabilities.

BlueAssist has provided cards to all the young people, enabling us to work with them on communication skills with regards to travel, and to practise writing the cards when in a real-life train travel situation.

By engaging with these future passengers when they are young, we hope to ensure they develop confidence and the ability to travel independently or with support in the future.”
